

TIMBER COVE COUNTY WATER DISTRICT

NOTICE OF TEMPORARY WATER SERVICE INTERRUPTION

Highway 1 Permanent Water Line Installation

Date of Work: Beginning Monday, April 27, 2026

Time: Starting at 6:00 a.m.

Duration: **Up to 72 hours**

Dear Timber Cove Customers,

The Timber Cove County Water District would like to inform you that water service will be temporarily interrupted beginning at 6:00 a.m. on Monday, April 27, 2026, for up to 72 hours.

This interruption is necessary to allow Caltrans, in coordination with Precision Excavating & Drilling, to install the permanent water line as part of the Highway 1 repair project. The highway has now been stabilized, and the temporary bypass system currently in place will be removed as the permanent line is installed.

We understand that this is a longer interruption than usual, and we sincerely appreciate your patience. This extended timeframe is required to ensure that the installation is completed properly and in full compliance with State regulations, including proper installation, pressure testing, disinfection, and required water quality sampling before service can be safely restored.

The addresses expected to be affected include:

Highway 1:

22116, 22124, 22130, 22137, 22138, 22147, 22125, and 22148

Lee Drive:

22054, 22060, 22063, 22068, 22071, 22083, 22090, 22095, 22102, 22108, 22113, 22115, 22119, and 22126

What You Should Do:

- Store sufficient water for drinking, cooking, and sanitation needs
- Plan no water use during the outage period
- Once service is restored, run cold water taps for several minutes to clear any air or discoloration

Bottled water will be available to customers at the District plant during the outage period.

The District will continue to monitor the work closely and will provide updates if the schedule changes or if service is restored sooner than anticipated.

We apologize for the inconvenience and thank you for your understanding as we complete this critical infrastructure improvement.

Sincerely,

Timber Cove County Water District
